

## The Ghosts Betwixt Quick Start Guide

The Ghosts Betwixt's Story Mission 1 is now live in Table Top Simulator! Simply follow these steps to get started:

1. Load Table Top Simulator in Steam. Under Steam Workshop, search "The Ghosts Betwixt".
  2. Download the following docs:
    - a. Rulebook – URL here
    - b. Mission Guide – URL here
    - c. Starting Equipment Guide – URL here
  3. You may ignore "Setup" in the Mission Guide, as all components for Mission 1 are already set up for you.
  4. Choose Starting Equipment
    - a. Open Starting Equipment Guide
    - b. All starting equipment is laid out in the middle of the table
    - c. Purchase the equipment you want for each family member
    - d. Add the appropriate hit die to each dashboard. For example...
      - i. If you choose the Broken Snowshover for Avelynn, you will add a G (green) hit die to her dashboard.
      - ii. As seen in the Rulebook, attack die (LY, DY, LO) are chosen based on whether a melee or ranged weapon is equipped. If a melee weapon is equipped, refer to the family member's Str. If a ranged weapon is equipped, refer to the family member's Acc. Damage die colors are as follows:
        1. LY (light yellow) = 1
        2. DY (dark yellow) = 2
        3. LO (light orange) = 3
      - iii. For example, if you choose a ranged weapon for Maddox, add the DY (dark yellow) damage die to his dashboard because he has an Acc of 2.
    - e. Once the starting equipment phase is complete, shuffle the leftover equipment cards back into the Brown Equipment Deck.
    - f. Choose which three family members are active and which will be on lookout. The lookout family member will remain on his or her dashboard.
    - g. Lastly, move at least one family member adjacent to the door. You are now ready to begin the Drawing Phase and proceed with completing Objective 1 – Find the Locked Door. Enjoy!
- Please bear with us as we are still finalizing art components.
